

How to Register via Quest Registration site for New Participants

- Visit My.QuestForHealth.com
- Use the **Create Account** area, enter the registration key (**columbiauniversity2023**), and select the **Register Now** button
- Once you've established an account during the initial registration process, use the **Log In** area for any subsequent entries into the site. Enter your **username** and **password** and select the green **Log In** button
 - If you've forgotten your login information, use the **username** link to retrieve your username or the **password** link to reset your password

The screenshot shows the Quest Diagnostics website interface. At the top left is the Quest Diagnostics logo, and at the top right is a 'Contact' link. The main content area is split into two panels: a white 'Log In' panel on the left and a dark green 'Create Account' panel on the right. The 'Log In' panel contains fields for 'Username *' and 'Password *', a 'Log In »' button, and a link for 'Forgot your [username](#) or [password](#)?'. The 'Create Account' panel contains a 'Registration Key *' field, a note 'Located in a communication from your company', and a 'Register Now »' button. The background of the page features a woman in a pink tank top looking out over a coastal landscape.

Transform your health

Biometric screening results provide powerful insights into your health risks that you may not currently recognize. Complete your biometric screening to know your numbers and connect to quality care to help manage health risks and prevent chronic disease.

- Read through the Quest Diagnostics Terms and Conditions
- Scroll to the bottom and select the **Accept & Continue** button

Terms and Conditions

1. Terms of Service: Quest Diagnostics Employer Population Health ("EPH") supports health benefit management programs with policies in place to maintain the confidentiality of your information consistent with Quest Diagnostics Notice of Privacy Practices, which may be found at [QuestDiagnostics.com/home/privacy/](https://questdiagnostics.com/home/privacy/). Our Privacy of Protected Health Information (PHI) policy requires that we must obtain, maintain, use, and disclose patient protected health information in a manner that protects patient privacy and complies with all state and federal laws. Though this is a voluntary program, should you choose not to accept these Terms of Service, you will not be able to participate.

2. You are participating in a voluntary population health program, and by your participation you freely and voluntarily assume any risks associated with the screening process. You must be 18 years of age or older. As needed for the program(s) available to you, you consent to the collection of a blood sample from a fingerstick or from the arm; measurement of blood pressure, height, weight, waist and/or hip measurements; the collection of a cheek swab or blood sample for the purpose of cotinine testing to detect tobacco use; the collection of a nasal swab for the purposes of performing a test for the detection of COVID-19 and/or to a blood draw to determine whether you have developed antibodies to COVID-19; and/or the collection of a fecal sample for Colorectal Cancer screening. You understand that collection of a blood sample involves certain potential risks that may include but are not limited to prolonged bleeding, fainting or feeling lightheaded, bruising and multiple sticks. If the program includes the reporting of results at the point of collection, this data should be considered preliminary, as the results are screening assessments only. The instrument used on-site may yield results that vary from what would be reported if the same testing was performed by the laboratory on a specimen obtained from your arm.

How to complete registration for Onsite event:

- To schedule an appointment at one of the three Health Screening events by Columbia University HR Benefits, in the **Biometric Screening** section, under Onsite Event's, select the **Make an Appointment** button

Why You Should Participate

Biometric screening information may prevent or delay chronic conditions complications such as hypertension, heart disease and diabetes. A screening includes a blood pressure check, height and weight measurement, and a lipid and glucose panel, which is a group of tests to determine the risk of coronary heart disease.

Biometric Screening

To get started, select an appointment method below.

Onsite Event's

Attend an event at Morningside, Manhattanville, or CUIMC campus. Flu shots will be available for walk-ins at the Morningside (11/1, 8AM-2PM) & Manhattanville (11/2, 8AM-2PM) locations

[Make an Appointment ►](#)

Transform your health

- Select the onsite event location where you'd like to complete your screening
- Select the **Continue** button at the bottom left side of the Map
