A hospital stay can happen at any time, and it can be costly. Cigna Hospital Care can help you and your loved ones have additional financial protection. We can help cover these unexpected events – so you can focus on getting better.

How Cigna Hospital Care can help
How would you pay for a hospital stay? Even with medical coverage, out-of-pocket costs can add up. But with Cigna Hospital Care, you receive a check after a qualified hospitalization resulting from a covered injury or illness. You can use the money however you’d like. For example, it can help you pay for expenses related to child care, travel, or other out-of-pocket expenses. There are no copays, deductibles, coinsurance, or network requirements. And benefits aren’t reduced because you receive a payment from any other coverage you have, such as medical, accidental injury or critical insurance.

The average inpatient hospital stay in the U.S.
- Costs $2,271 per day
- Lasts 6.1 days

With nearly 3/4 of Americans living paycheck-to-paycheck, these expenses can be difficult to handle. Cigna Hospital Care insurance can help.

Additional financial protection to fit your needs
Cigna Hospital Care pays benefits for hospitalizations resulting from a covered injury or illness. Coverage continues after the first hospitalization, to help you have protection for future hospital stays.

Why sign up for Cigna Hospital Care?
- Additional financial protection. Protection for you and your family when you need it most.
- Cost-effective. You can sign up for this coverage at economical group rates, which means you may pay less for your coverage.
- Convenient. We make it easy. Your insurance premiums can be deducted from your paycheck.
- Portable. You can take your coverage with you if you leave your employer – benefits and rates won’t change if you port your coverage.*

*Under most plans, coverage is portable under the age of 70 and ends at age 100. Review your plan documents for details.

Together, all the way.
