AGREEMENT made and entered into this **17th** day of **August, 2022**, by and between the Trustees of Columbia University in the City of New York, (hereinafter referred to as the "University" and/or the "Employer"), on behalf of its Medical Center (hereinafter referred to as the "Employer"), and 1199 SEIU United Healthcare Workers East, SSA Area, (hereinafter referred to as the "Association" and/or the "Union").

WHEREAS, the parties hereto desire to cooperate in establishing and maintaining conditions which will tend to secure to the employees of the Employer fair and reasonable conditions of employment, and to provide methods for fair and peaceful adjustment of all disputes which may arise, so as to secure uninterrupted operations of the activities of the Employer;

NOW, THEREFORE, be it mutually agreed as follows:

ARTICLE 1

RECOGNITION AND COLLECTIVE BARGAINING UNIT

- A. The Employer recognizes the Union as the sole and exclusive bargaining representative for full-time and regular part-time service, technical, and clerical employees of the supporting staff of the College of Physicians & Surgeons and the Schools of Nursing, Public Health, and Dental and Oral Surgery, employed at the Columbia Presbyterian Medical Center and/or the following locations: Julius and Armand Hammer Health Sciences Center; Augustus Long Library; New York State Psychiatric Institute; Bard Hall, 50 Haven Avenue, New York City, 78 Haven Avenue, New York City; 556 West 168th Street, New York City; 238 Fort Washington Avenue, New York City; 251 Fort Washington Avenue, New York City; 21 Audubon Avenue, New York City; 511 West 166th Street, New York City; 100 Haven Avenue, New York City. Departments covered by this agreement which move into the Audubon Biomedical Science and Technology Park will continue to be covered by this agreement to the same extent as they were previously covered.
- B. Excluded from coverage are:
1. Professional employees, Departmental Administrators, Administrative Assistants, and Supervisors;
 2. Confidential employees, under the law;
 3. Employees who work less than an average of twenty (20) hours per week;
 4. Temporary/casual employees as defined below.
 5. Student employees with "student status" (a student employee is one with "student status", which permits exemption from the Social Security tax and is

claimed by the employee who is primarily a student at Columbia University. An employee who is working primarily to support him/herself and who attends University classes only because they are available to him/her, does not have "student status");

6. Security Officers;
7. Department of Facilities Management employees;
8. Department of Residence Halls and Department of Food Services employees;
9. Harlem Hospital Center Affiliation employees and other employees working at Harlem Hospital Center;
10. Employees employed at the following locations:

72 East 91st Street, New York City; Fort Dix, New Jersey; Cornell University Medical School, 1300 York Avenue, New York City; Lenox Hill Hospital, 77th Street and Lexington Avenue, New York City; Veterans Administration Hospital, 130 West Kingsbridge Road, Bronx, New York; Rockland State Hospital, Orangeburg, New York; 135 East 83rd Street, New York City; Hicksville, Long Island, New York; Trenton, New Jersey; West Hyattsville, Maryland; Brookhaven National Laboratory, Upton, New York; Tenafly, New Jersey; Leonia, New Jersey; Hudson River State Hospital, Poughkeepsie, New York; Overlook Hospital, Summit, New Jersey; 367 Franklin Avenue, Franklin Square, New York;
11. Medical Center Bookstore employees;
12. Student Information Services employees.
13. Employees of tenants and/or the City of New York in the Audubon Biomedical Science and Technology Park.

C. Whenever the word "employee(s)" is used in this Agreement, it shall mean employee(s) in the bargaining unit.

D. It is agreed that this Agreement shall apply and continue in full force and effect at any location to which the bargaining units may move. It is further agreed that this Agreement shall apply to any new or additional facilities of the bargaining units and under the Employer's principal direction and control within the five boroughs of New York City, Nassau, Suffolk and Westchester Counties. In the event of a merger of the Health Science Division with any other institution, the Employer will provide notice to the Union upon the finalization of such agreement, and will meet and confer with the Union with respect to the impact of such merger on employees.

E. Definition of Regular Part-time Employees - An employee who has a regularly assigned schedule of at least twenty (20) hours a week and who is expected to serve continuously for more than four (4) months, is known as a regular part-time employee. Such employees are eligible according to their regular work schedule on a pro-rata basis and as defined in this agreement for the following benefits which are available to a regular full-time employee: vacation, sick leave, group life insurance, partial tuition exemption [if working twenty (20) or more hours per week] and any University holidays that fall on one of his/her regularly scheduled workdays.

F. Definition of Temporary/Casual - A temporary or casual employee is one who is hired for a period of up to four (4) months (measured as 560 hours in a rolling year) and is so informed at the time of hire. This may include an employee hired for summer work, or for a special project, or to replace an employee on leave or vacation. The said four (4) month period may be extended up to an additional two (2) months, or, in the case of a leave of absence, for the length of the leave of the employee being replaced, with the consent of the Union, which shall not be unreasonably withheld. However, such employee shall become a member of the Union after expiration of the initial four (4) month period.

If a temporary employee becomes permanent, his/her temporary employment is in lieu of his/her probationary period, provided that his/her job classification remains unchanged. Upon becoming a permanent employee, his/her bargaining unit seniority shall be retroactive to the last date of hire. In such cases, the immediate previous period of temporary employment shall be credited to benefits under this Agreement; it being understood, however, that such period shall not result in any retroactive coverage or in any retroactive contribution to any benefit plan.

See Exhibit D for applicable process in the event that a temporary or casual employee as defined in this provision exceeds four months or the length of leave being covered.

G. When an employee is hired, the Employer shall inform the employee, in writing, of its contractual relationship with the Supporting Staff Association and the Employer must advise the employee of Articles 2, 3, 4, and 5, of this Agreement along with his/her job title, main responsibility, starting salary, effective date of salary, benefits and opportunities for job advancement.

All employees hired shall, as a condition of employment, be required to attend an employee orientation session. Attendance at, and completion of, the orientation session shall be a pre-condition of hire and continued employment. Employees shall be provided with a Union packet of information and shall be required to execute and sign all necessary Union check-off forms, and register with the Union at the time of their orientation session.

The employer agrees to transmit, within 48 hours of the scheduled orientation session the properly executed Union membership forms to the Union Office as well as provide a list of those employees attending the orientation sessions, their date of hire, and copies of their hiring notice.

ARTICLE 2

UNION SECURITY

- A. All employees shall maintain their membership in the Union in good standing as a condition of continued employment in the bargaining unit.
- B. All present employees who are not members of the Union shall become members thirty (30) days after the effective date of this Agreement, or the execution date, whichever is later, after which Section A above shall apply.
- C. All new employees who are hereafter hired shall become members of the Union thirty (30) days after the beginning of their employment after which Section A above shall apply.
- D. For the purpose of this Article, an employee shall be considered a member of the Union in good standing if he/she tenders periodic dues and initiation fee uniformly required as a condition of membership.
- E. An employee who fails to maintain membership in the Union in good standing as required by this Article, shall, within twenty (20) calendar days following receipt by the Employer of a written demand from the Union requesting discharge, be discharged if, during such period, the required dues and initiation fees have not been tendered.

ARTICLE 3

CHECKOFF

- A. Upon receiving a voluntary checkoff card from an employee, the Employer shall deduct dues and initiation fee, as fixed by the Union, from the wages due such employee each month. Deductions shall be made the first payday of each month for that month, (enrollment forms will be completed at the time of employment) and then remitted to the Supporting Staff Association by the end of the month.

The Employer's obligation to checkoff shall end upon termination of employment or transfer out of the bargaining unit, and shall not be in effect during layoff or unpaid official leave(s).

- B. Employees who do not sign written authorization for deductions must adhere to the same payment procedures by making payments directly to the Union.
- C. The Union shall indemnify and hold the Employer harmless from any action(s) growing out of these deductions. The Union assumes full responsibility for the deductions turned over to it by the Employer.
- D. It is specifically agreed that the Employer assumes no obligation, financial or otherwise, arising out of the provisions of this Article, and the Union hereby agrees that it will indemnify and hold the Employer harmless from any claims, actions or proceedings by any employee arising from deductions made by the Employer hereunder. Once the funds are remitted to the Union, their disposition thereafter shall be the sole and exclusive obligation and responsibility of the Union.
- E. The Employer shall notify the Union once per month of the change in status of any member who is on approved leave in excess of 30 days. The notice will be in writing, and will include the employee's name, department, job title, type of leave, date leave begins, and anticipated return date.
- F. The Union may process arbitration claims under this Article 3 before the funds arbitrator pursuant to the procedures set forth below.

Alan R. Viani is hereby designated as the Impartial Arbitrator to hear and determine any disputes which may arise between the parties with regard to payment of dues under Article 3. Such arbitration shall be heard no later than ten (10) days after written request for arbitration is submitted to the Arbitrator. The Award of the Arbitrator shall be issued within five (5) days thereafter. In the event of a vacancy in this position for whatever cause, the parties shall expedite the selection of an arbitrator to fill the vacancy.

ARTICLE 4

NON-DISCRIMINATION

- A. In a desire to restate their respective policies, neither the Employer nor the Union shall unlawfully discriminate against or in favor of any employee on account of race, color, creed, religion, national origin, ethnic origin, sex, age, marital status and citizenship. Neither the Employer nor the Union shall unlawfully discriminate against or in favor of any employee on account of political belief or sexual orientation, or against any qualified

individual with a disability who can perform the essential functions of the position, with or without reasonable accommodation. Neither the Employer nor the Union shall unlawfully discriminate against or in favor of any employee because of membership in the Union and/or activities on behalf of the Union as protected by the National Labor Relations Act as amended.

- B. It shall be prohibited for the Employer, the Union or any employees to harass another employee on the basis of sex as defined under the law. If a member of the Bargaining Unit believes that he/she is being sexually harassed, the matter will be brought to the University's attention by filing a grievance under the procedure provided in this Agreement. The filing of such a grievance may be preceded by resort to the University Panel on Sexual Harassment or by notifying the Director of Affirmative Action.
- C. Any employee claiming a violation of this article may file a grievance at Step 3 of the grievance procedure.

ARTICLE 5

PROBATIONARY PERIOD & PERFORMANCE APPRAISALS

- A. Newly hired employees shall have a probationary period of four (4) months from the date of employment, exclusive of absences for any cause.

During the probationary period, any employee may be terminated at the will of the Employer, and such termination shall not be subject to the grievance and arbitration procedure provided in this Agreement.

The Employer shall notify the Union, in writing, of any such termination of a probationary employee. Following completion of a probationary period, the employee shall be considered a regular employee and entitled to all the rights of this Agreement.

- B. An employee once terminated shall serve another four (4) month probationary period upon being rehired. An employee laid off and recalled to the same job classification in the same department shall not serve another probationary period.
- C. During the probationary period, the employee's performance will be monitored and evaluated, and the employee will be kept abreast of his/her progress. A written probationary performance appraisal will be completed by the employee's supervisor and discussed with the employee during the probationary period. This procedure shall not be subject to the grievance and arbitration procedure provided in this agreement. If the employee's supervisor does not complete a probationary evaluation, then a probationary

employee who has not otherwise been terminated under Section A will be deemed to have satisfactorily passed the probation period and to have become a regular employee.

- D. Following an employee's completion of the probation period, Departments may institute an annual assessment of competencies for each of the staff within their divisions. The assessment will cover work related competencies and also may cover any new equipment or systems that the employee received training on for their job functions.

The details of implementation of the Performance Appraisal form and the process will be subject to agreement by the Labor-Management Committee.

ARTICLE 6

HOURS AND OVERTIME

- A. The regular work week for full-time employees shall be thirty-five (35) hours per week, seven (7) hours per day, with a break for mealtime not to exceed one (1) hour. The mealtime break shall not be included in the seven (7) hour working day.

Employees will be notified at least five (5) working days in advance of any permanent schedule change, except in case of emergencies.

Employees who are required to remain at their work stations without interruption are entitled to two (2) scheduled fifteen (15) minute breaks in each work day. Subject to operating needs, other employees will be allowed to leave their desks for brief periods to get coffee and the like.

- B. Work performed beyond the regular full-time work week as described above shall be paid at time and one-half the regular rate of pay.

Employees shall be compensated at the rate of one and one half (1 1/2) times their regular pay for authorized time worked in excess of the regular full time work week of thirty-five (35) hours up to forty (40) hours by receiving pay for such overtime worked. For hours worked between thirty-five (35) and forty (40), compensatory time off may be taken by mutual agreement, in which case the agreement must be committed to writing using the following language provided by the department: "It is agreed that the overtime hours worked between thirty-five and forty hours during the week ending XXX shall be received as compensatory time off." The employee shall indicate agreement in writing. Compensatory time must be scheduled and used within ninety (90) days from the time worked. Any time worked after forty (40) hours shall be paid at time and a half (1 1/2).

- C. Regular full-time employees who work thirty-five (35) hours, Monday through Friday, will be paid time and one-half for any hours worked on Saturday, and double time for any hours worked on Sunday. Regular full-time employees who work thirty-five (35) hours on other than a Monday through Friday schedule will be paid time and one-half for any

hours worked on a sixth work day beyond the regularly scheduled thirty-five (35) hours in the work week and double time for any hours worked in a seventh work day beyond the regular schedule of thirty-five (35) hours in the work week.

- D. Paid absences, except sick days paid, shall be considered as time worked for purposes of computing overtime. Unpaid absences shall not be considered as time worked.
- E. Employees are eligible for overtime pay only for those hours authorized by the Department Head or his/her designee. The Employer shall be the sole judge of the necessity for overtime. The Employer shall endeavor, insofar as it may be practicable, to make an equal distribution of overtime among the qualified employees within a classification, within a research or training project, or within a department, whichever is applicable.
- F. Flexible hours mean regularly assigned working hours that are different from the normal departmental schedule. The University will consider employee requests and will try to grant them when there is a compelling need on the part of the employee including but not limited to child care and educational considerations, and where the department's functioning will not be adversely affected. All considerations for flexible hours are non-grievable and non-arbitrable.
- G. The Employer will use a uniform time sheet and time reporting procedures.

ARTICLE 7

DISCIPLINE

- A. After completion of his/her probationary period, an employee may be discharged or disciplined for just cause. Such discharge or discipline shall be subject to the grievance and arbitration provisions of this Agreement. The Employer will notify the employee in writing of the reason(s) for discharge or discipline. The Employer will furnish the Union with a copy of the written notice within forty-eight (48) hours from the date of notice to the employee.
- B. Material relating to suspensions shall be removed from the employee's University Personnel Record after two (2) years if no other similar disciplinary action(s) has occurred during this period. Material relating to oral or written warnings will be removed after one (1) year if no other similar disciplinary action(s) has occurred during this period, and the employee has shown that he/she has been rehabilitated subsequent to the discipline.

- C. (i) Employees will be granted access to their University personnel files in accordance with University policy. Access to other persons will be limited in accordance with University policy.
- (ii) An Employee may review and have a copy made of material in his/her personnel file (departmental and Medical Center Human Resources) once per calendar year with an appointment in accordance with procedures established by Medical Center Human Resources.

ARTICLE 8

SENIORITY

- A. Bargaining unit seniority shall be defined as the length of time an employee has been continuously employed in the bargaining unit or employed in a Department of Columbia University. An employee shall have no seniority during his/her probationary period. Upon successful completion of his/her probationary period, however, his/her seniority shall be retroactive to his/her date of hire. Classification seniority shall be defined as the length of time an employee has worked continuously in a specific job classification within a research or training project or Department, as applicable.

- B. Seniority shall accrue when an employee is on:
 - 1. authorized leave of absence without pay up to one hundred eighty (180) consecutive calendar days;
 - 2. jury duty and condolence leave;
 - 3. layoff not to exceed the lesser of twelve (12) months or the length of an employee's continuous employment;
 - 4. sick leave up to one hundred eighty (180) consecutive calendar days.

- C. Seniority shall be broken when an employee:
 - 1. terminates voluntarily;
 - 2. is discharged for cause;
 - 3. willfully exceeds an official leave of absence after notification by certified mail or an equivalent express service;
 - 4. is laid off for twelve (12) consecutive months or a period exceeding the length of the employee's continuous employment, whichever is less;

5. fails to call his/her supervisor or designee when absent from work for five (5) or more consecutive work days without reasonable excuse as to the reason for such absence.
- D. Previous service for computing retirement benefits for those employees who have terminated employment and later returned to employment shall be credited as set forth in the Pension Plan Document, as amended.

ARTICLE 9

PROMOTIONS

- A. Employees who apply for a promotion when an opening occurs in their present research or training project or department, as applicable, shall be promoted on the basis of classification seniority, provided the employee has the skill, ability, experience, and educational background. The employee's University Personnel Record shall also be taken into consideration as one of the factors in evaluating an applicant for promotion. The selection herein shall be subject to the grievance and arbitration procedure.
- B. When there is such a vacancy, it shall be posted for a period of five (5) working days at centrally located bulletin boards. If the opening is not filled from within the research or training project or department as applicable in Section A above, then the employee shall be selected on the basis of bargaining unit seniority provided said employee has the skill, ability, experience, educational background, and physical fitness to perform the available work. During this period, the Employer will not interview or hire anyone outside of the University. The Investigator, Project Director or Supervisor involved shall be the sole judge of the capability of the employee to perform the available work.

The employer will provide sufficient copies of job postings for posting on Association bulletin boards. Such postings will be provided in an electronic format. The Employer will provide a locked bulletin board to be placed outside of the Union's office. This bulletin board will be used solely to display current job postings for bargaining unit positions. The Union will be responsible for maintaining the bulletin board.

- C. An employee who receives a promotion will be subject to a four (4) month probationary period. In the event the employee does not successfully complete thirty (30) days in the new position, the employee may return to his/her previous position providing that it has not been filled by an internal promotion or transfer and providing he/she has not previously returned to a former position under these provisions. Between day 31 and the end of the four (4) month probation, if the employee does not successfully complete the

probationary period, he/she may return to his/her previous position providing the position has not yet been filled or canceled.

Management will use its best efforts to place the employee in a position equivalent to the former position when the promoted employee does not successfully complete his/her four (4) month probationary period.

- D. An employee who receives a lateral transfer will be subject to the same provisions as set forth in Section C above.
- E. An employee must complete a minimum of six (6) months of continuous employment in the bargaining unit in his/her position before requesting a lateral transfer or promotion, however, he/she may be considered for a position within his/her project or department if no qualified internal applicant with six (6) months or more of continuous University employment applies.
- F. An employee who receives a promotion to the next highest classification level shall receive a promotional increase equal to the grade rate difference.
- G.
 1. In the event that there is a substantial change in the job duties of an employee, the Employer will review the job description and classification to assure that they accurately represent the job. The University will notify the employee and the Union of changes in job description and classification. Such changes in classification are subject to the grievance procedure provided herein.
 2. In the event that an employee believes that the scope/content of his/her job responsibilities has materially changed, and that the position should be upgraded to a higher level, the employee may file a written request for a review of the job classification with his/her immediate supervisor. The employee must describe in detail how the knowledge, skills and ability required for the position have changed as compared to the work previously performed, so as to justify an upgrade. Routine changes in staffing, technology or methodology for performing the job shall not justify an upgrade. The supervisor will meet with the employee and review his/her job description. The employee will be notified within 15 days of the submission of the request.

The employee may request review of the supervisor's determination by filing a written request within 10 days in Human Resources. Human Resources will investigate the request and provide a written response within 30 days. In the event that Central Human Resources denies the upgrade and the employee wishes to contest the denial, it is understood the employee must file a grievance through the grievance process *initially at the 3rd step* before proceeding to arbitration and the burden shall be upon the employee to demonstrate by clear and convincing evidence that an upgrade is warranted.

ARTICLE 10

RESIGNATION

- A. An employee who resigns shall give the Employer two (2) weeks advance notice.
- B. An employee who gives notice of resignation, as provided above, shall be entitled to receive payment for unused vacation time accrued on the effective date of resignation or termination. If notice is not given as provided above, an employee shall not be entitled to such payment, provided it was possible for the employee to have given such notice. The Union shall be notified, in writing, by the Employer if such action is taken.

ARTICLE 11

LEAVE OF ABSENCE

Employees shall be eligible for unpaid leave of absence without loss of seniority or status in accordance with the following:

- A. Maternity Leave - Maternity shall be treated just as any other non-occupational disability circumstance as set forth in Article 19 of the Contract. Medical expenses incurred during pregnancy and maternity delivery shall be covered for all eligible employees under the employee's current medical insurance plan as would any other disability.
- B. Union Business - Any employee with six (6) or more months of employment shall be eligible to take an unpaid leave of absence, not to exceed one (1) year in order to accept a full-time position with the Supporting Staff Association provided the leave does not hinder the operation of the project or department.
- C. Military Leave - A regular employee who volunteers or is drafted for military service may request a military leave of absence in accordance with the Uniformed Services Employment and Reemployment Rights Act, as amended, then in effect.
- D. Duty in Military Reserve - An employee who is called to two (2) weeks' active duty in the National Guard or Military reserve is allowed two (2) weeks for military service beyond his/her regular vacation. The employee may receive the difference by which his/her University salary exceeds his/her service pay. This policy applies only to a full-time, regular employee who has completed the four (4) month probationary period.

- E. Personal Leave - Personal leaves of absence may be authorized for a period of up to six (6) months.
- F. Family Leave - Family leaves of absence shall be subject to the guidelines set forth by the Family and Medical Leave Act of 1993.
- G. Employees who have completed nine months of employment may take personal leave without pay for infant care purposes in addition to the sick and non-occupational disability leave, however, such leave shall not exceed ten (10) months in duration.

In support of family concerns, a full-time employee may return to work on a part-time scheduled basis for a period of up to four weeks immediately following a leave of absence for pregnancy-disability, infant care, adoption or foster care placement of a child.

All leaves granted under this Section G shall be considered FMLA leaves if applicable. Leaves granted under this Section shall be in lieu of any leave for which the employee might be eligible under Section E above.

Employees shall be allowed to use accumulated vacation time to care for a sick family member.

- H. In all instances, leaves of absence under this Article must be requested in writing by the employee and responded to, in writing, by the employee's supervisor within ten (10) working days of the receipt of the request.

While on any unpaid leave of absence, an employee shall not be entitled to earn holiday pay or to accrue vacation time or sick leave time.

Upon return from an approved leave of absence, an employee will return to the same position or an equivalent position and will retain classification seniority.

ARTICLE 12

GRIEVANCE AND ARBITRATION

- A. A grievance shall be defined as a dispute or complaint arising between the parties to this Agreement under or out of this Agreement or the interpretation, application, performance, termination or any alleged breach thereof, and shall be processed and disposed of in the following manner:

Step 1. - Within ten (10) working days, an employee having a grievance and a representative of the Union shall take it up verbally with the Principal Investigator,

supervisor or his/her designee, Director or other individual charged with the responsibility for the direction or functioning of the unit involved.

The Principal Investigator, supervisor or his/her designee shall give his/her answer to the employee and official of the Union within five (5) working days after the presentation of the grievance.

If the Principal Investigator, supervisor or his/her designee is not available, a request for an extension of the time limitation shall not be unreasonably denied. If the Union deems the grievance to be a pressing matter, it can proceed to Step 2.

If the Principal Investigator, supervisor or his/her designee denies the grievance at Step 1, the grievance shall be reduced to writing by the grievant and representative of the Union.

Step 2. - If the grievance is not settled in Step 1, the grievance may, within five (5) working days after the answer in Step 1, be presented in Step 2. When grievances are presented in Step 2, they shall be presented on a uniform, written grievance form, setting forth allegations of the specific incidence and the specific violations of the Collective Bargaining Agreement, signed by the grievant and a representative of the Union, and presented to the grievant's Department Chairman or his/her designee. The Department Chairman or designee shall meet with the grievant and union representative to hear the allegations of the specific incidence and the specific violations of the collective bargaining agreement within ten (10) working days upon receipt of the written grievance. The department chairman or designee shall respond to the grievance in writing within five (5) working days after meeting with the union and the grievant.

Step 3. - If the grievance is not settled in Step 2, the grievance may, within five (5) working days after the answer in Step 2, be presented in Step 3. A grievance shall be presented in this Step in writing, setting forth allegations of the specific violations of the Collective Bargaining Agreement, signed by the grievant and a representative of the Union and presented to the Senior Director of Labor Relations, with a copy to the Department Chairman or designee responsible for the second step. The Senior Director of Labor of Relations or designee shall meet with the grievant and the Union representative within 10 working days, and shall render a decision in writing within 10 working days after the meeting.

The University agrees to provide relevant information concerning a Step 3 grievance hearing on a timely basis prior to the date of the hearing upon receipt of a timely request.

- B. Failure on the part of the employer to answer a grievance at any Step shall not be deemed acquiescence thereto, and the Union may proceed to the next Step.

- C. Anything to the contrary herein notwithstanding, a grievance concerning a discharge or suspension shall be presented initially at Step 3, within ten (10) working days of the time the employee is notified of the discharge or suspension.

- D. Without waiving the Employer's statutory rights, a grievance on behalf of the Employer may be presented initially at Step 3 by notice in writing addressed to the Union at its office.
- E. All time limits herein specified shall be deemed to be exclusive of Saturdays, Sundays and holidays.
- F. Any disposition of a grievance from which no appeal is taken within the time limits specified herein shall be deemed conclusive, and the grievance shall not thereafter be considered subject to the grievance and arbitration provisions of this Agreement.
- G. (i) A grievance which affects a substantial number of employees, and which the Employer representatives designated in Steps 1 and 2 lack authority to settle, may be presented initially at Step 3 by a representative of the Union.
(ii) A grievance concerning a layoff or failure to recall will be presented at Step 3.
- H. A grievance, as defined in Section A above, which has not been resolved hereunder shall, within twenty (20) working days after completion of Step 3 of the grievance procedure, be referred for arbitration by the Employer or the Union to a panel arbitrator from an agreed-upon panel of six arbitrators. Cases shall be assigned on a rotational basis to the members of the panel in accordance with Arbitrator Edelman's March 15, 2004 Consent Award attached hereto as Exhibit C.

In order to resolve the hardship associated with release time, the University and the Union agree to release one half of the membership for membership meetings per a request by the University. The remaining half of the membership will be released on another day during the same week. Management and the Union shall mutually agree on the dates and times of these meetings

Due to the significant impact release time has, issues related to the release of delegates and members in those Departments shall be addressed directly by the 1199 SEIU Executive Vice President in charge of United Healthcare Workers East SSA Area and the Assistant Vice President of Labor Relations.

- F. The University will provide a monthly listing to the Union of employees not on the regular payroll who fall within the recognition limits set forth in Article I of the Contract. The list shall include casual and temporary employees, the department, number of hours worked, and salary.

The University will notify the Union in Writing within thirty (30) days, when members in bargaining unit positions have their positions upgraded to officer status and thus the position is removed from the bargaining unit. ARTICLE 17

13 - 14 years	13 weeks	Over 26 years	26 weeks

Employees will be deemed to have one year of service for every 12 completed months of full-time employment. Two completed months of regular part time employment will be deemed to equal one month of full time employment. Three completed months of casual employment for casual or temporary employees who become permanent employees (as provided in Article 1, Section E or F) will be deemed to equal one month of full time employment. The total allowance will be calculated based upon the total number of months derived from this formula.

- B. An employee shall receive layoff allowance in one lump sum amount less applicable tax deductions, and must return to the University any amount paid if said employee is recalled and reinstated during the period covered by the layoff allowance. To the extent possible an employee will receive the layoff allowance at the same time that the employee receives his/her final paycheck. Failure of employees notified of layoff to present themselves to the Personnel Office to register for the central recall pool will result in the non-payment of layoff allowance.

- C. In the event an employee is subject to subsequent layoff, he/she shall be entitled on each occasion to one (1) week's layoff allowance for each year of his/her bargaining unit seniority, up to a maximum of twenty-six (26) weeks, reduced by the number of weeks of layoff allowance previously received.

- D. These layoff allowance provisions do not apply to a quit, a resignation, a discharge, or a group transfer of payroll from the Employer to another corporate or organizational entity.

ARTICLE 18

LAYOFF AND RECALL

A. Research and Training Projects

Should retrenchment necessitate a layoff in a research or training project, employees in that project who are engaged in the same job classification shall be laid off in the inverse order of their bargaining unit seniority. In connection with the layoff, the placing of one employee in another employee's job in the same job classification for the purpose of retaining the more senior employee shall be permitted to occur only within the research or training project affected by the layoff, and provided the more senior employee is able to perform the available work. Probationary employees and temporary employees shall be laid off before any other employees covered by this Agreement.

B. Other than Research and Training Projects

Should retrenchment necessitate a layoff in an activity in a department other than in a research or training project, employees in such activities who are engaged in the same job classification shall be laid off in the inverse order of their bargaining unit seniority. In connection with the layoff, the placing of one employee in another employee's job in the same job classification for the purpose of retaining the more senior employee shall be permitted to occur only in department activities other than research or training projects and provided that the more senior employee is able to perform the available work.

Probationary employees and temporary employees shall be laid off before any other employees covered by this Agreement.

C. Notice of Layoff

An employee to be laid off with less than one (1) year of service shall receive two (2) weeks written notice. Any employee to be laid off with more than one (1) year of service shall receive four (4) weeks written notice. Where the notification period is not complied with, wages will be paid in lieu of notification time not provided. Copies of notice served hereunder shall be simultaneously served upon the Union.

Where a department has prior knowledge that a position definitely will be subject to a layoff, and the Medical Center Human Resources has given final approval for the layoff, the University will make reasonable efforts to give more than four (4) weeks notice.

Every reasonable effort will be made to give more than four (4) weeks written notice, in a case where the University has knowledge that a project will be closed because an investigator plans to leave.

The Employer will notify the Union as to the terms and conditions of the termination of a project because of retrenchment of funds and/or when an investigator is leaving the University.

D. Central Recall Pool

1. The University will maintain a current list of all employees who are in the central recall pool. The University will provide the Union with a monthly update of the list. Laid off employees may elect to receive the following:
 - a. Assistance in creating or updating a resume or statement of personal qualifications
 - b. Instruction on and access to the University's job postings and job posting web site (including Morningside and Harlem Hospital vacancies)
 - c. Information about how to apply for positions for which the employee is qualified and interested
 - d. Individual counseling
 - e. Benefits information.
 - f. Laid off employees who wish to remove themselves from the central recall pool will submit a written request to the Human Resources Department who will notify

the Committee established in Section 2 below.

When a position becomes available, the position shall be offered to the person with the greatest bargaining unit seniority in the job classification who has filed a master application and applied for the job unless said person is not capable of performing the available work.

2. For a six-month trial period after ratification of this agreement, there will be a jobs subcommittee of the labor/management committee referenced in Article 14, Union Activity, Section C, consisting of a maximum of five (5) members of 1199/SSA and five (5) representatives from CUMC including a Human Resources Administrator. The 1199/SSA Area subcommittee members will not be the same as the labor/management members unless mutually agreed. The Committee meetings shall not interfere with the operations of any department. After the initial six (6) month trial period, the subcommittee can be extended during the life of the current agreement for additional six (6) month periods upon mutual agreement of the parties. If the subcommittee is discontinued, these issues will be addressed by the labor management committee referenced in Article 14 C.
3. The 1199 SSA/CUMC Jobs Subcommittee will hold a monthly meeting to review vacant positions with the intent of matching them with qualified laid off applicants who are in the central recall pool. Appropriate departmental labor and management representatives shall attend. The 1199 SSA / CUMC Jobs Subcommittee will have full access to all relevant information and cooperation from the Human Resources Department for maximum placement of laid off employees.

The following rules will apply to the committee's review process:

- a. The qualifications of laid off employees with three (3) or more years of bargaining unit seniority who have not received a suspension for attendance or work performance and who have been laid off from University-funded clerical or library positions will be reviewed against University-funded clerical or library vacancies in the same or lower job classifications. Assuming the committee agrees that the laid off employee is qualified for the position and has applied, the employee will be placed in the position and be subject to a thirty (30) day probationary period.
 - i. It is understood that in the event an outside applicant is placed in a position for which the committee determines a laid off applicant is qualified as outlined above, the outside applicant shall be displaced.
 - ii. Where there is more than one qualified internal applicant, seniority shall govern.

- b. The qualifications of laid off employees with three (3) or more years of bargaining unit seniority who have not received a suspension for attendance or work performance and who have been laid off from externally-funded and/or technical positions will be reviewed against vacancies in the same or lower job classification that are part of a research or training project. The committee shall use its best efforts to help place laid off employees in these positions. Where a laid off employee whom the committee deems qualified is not placed in the position, he/she shall have his/her recall rights extended to fifteen (15) months.
 - c. In addition, the committee shall have the authority to review the discontinuation and reinstatement of the layoff rights of employees who could not be reached and/or fail to respond to requests for interviews for vacant positions as outlined below.
 - d. All other provisions of this section remain in full force and effect.
- 4. In the event of a layoff and during the recall period, if a vacant position becomes available in a higher job classification than the position of the laid off employee and the laid off employee meets the requisites set forth in Article IX, Section A then he/she may be considered for that promotion on the same basis as any other employee. In the event a vacant position becomes available in a lower job classification than that of the laid off employee and he/she meets the requirement for the position, then he/she may be considered for the position on the same basis as any other employee.
 - 5. A laid off employee who does not make him/herself reasonably available for interviews (pursuant to the terms of this Section outlined below) will forfeit his/her rights to recall.
 - 6. Persons will be contacted first by phone then by e-mail or regular mail as provided on the master application. Failure by the person to respond to such contact within five (5) business days from the date of this contact will remove the person from the central recall pool.
 - 7. A candidate the committee determines is qualified must be interviewed unless the committee determines that an interview is not required in order to assess qualifications for a position. Interdepartmental lateral transfers shall not be permitted to occur until persons on the central recall pool have been considered for positions in accordance with this provision.
 - 8. The Committee may consider written warnings in order to assess qualifications for a position. It is agreed that after six months the union may request mediation pursuant

to the terms of the attached side letter related to the issue of consideration of disqualifying applicants based on a written warning.

9. It is understood that time spent in the layoff pool will count towards the contractual time limits for the removal of discipline from the employee's record.
10. In cases of recall, the University shall be the sole judge of the capability of the employee to perform the available work. Upon rehire, an employee shall serve another probationary period unless that employee is recalled to the same job classification in the same department.
11. A test will not be administered to a laid off employee for positions requiring comparable skills where those skills were satisfactorily completed by the employee prior to layoff.
12. Where such an employee does not satisfactorily complete that probationary period, except in the case of discharge or resignation, he/she shall be returned to the pool and shall have the same number of days of layoff in which to be recalled as he/she had at the time of his/her initial recall.

Recall rights under this section shall exist for twelve (12) months or the length of the employees' bargaining unit seniority, whichever is shorter.

E. Displaced Worker Pool

Employees who have been laid off from their regular positions may be employed in temporary positions under the following rules:

1. Employees who have completed at least three (3) years of service as of the date of their layoff will be eligible to participate. Eligible employees must make a written election to participate or not to participate within two (2) weeks of receiving the notice of layoff.
2. An employee in the program will be covered by the collective bargaining agreement except as provided herein.
3. An employee who elects to participate:
 - a. Will not receive the layoff allowance provided in Article 17 of the collective bargaining agreement. In its place, the employee will be retained at his/her salary as of the date of layoff, and will receive the fringe benefits provided in the collective bargaining agreement, for a period of time equal to the number of weeks of layoff allowance pay the employee would have received under Article 17.

- b. Must accept all offered temporary, casual or training assignments and must work the same number of hours per week as the employee worked prior to the layoff, for the duration of time provided in paragraph 3(a). The University will attempt to accommodate work hour preferences, but cannot guarantee that the schedule and location of such assignments will be the same as those which the employee worked prior to the layoff. The University may assign any work which is of a general clerical nature for which the employee is minimally qualified.
 - c. Will receive holiday pay for any holidays which occur, but will not be eligible to use vacation, personal leave or sick leave while in the program, except as follows:
 - i. Because of the temporary nature of the assignments, the use of sick leave for absences due to illness shall be limited to one (1) day per month. In the event of longer absences due to illness, the employee will be required to use accrued vacation in lieu of sick leave. Employees in the program may be required to provide satisfactory evidence of illness; or
 - ii. After completion of a three (3) month period in the program, an employee may use one (1) week of previously accrued vacation for vacation purposes, provided the vacation is scheduled in advance.
 - d. Will be paid for overtime worked, in accordance with the collective bargaining agreement.
 - e. Must apply for any posted bargaining unit position for which the employee is qualified in the same or any lower grade. An employee who is offered a regular position at the same or greater salary, and who refuses such offer, will be terminated from the program and will receive a layoff allowance equal to the difference between the employee's original layoff allowance entitlement under Article 17 and the number of weeks they were in the program.
 - f. An employee will remain in a temporary assignment which extends longer than the length of time that the employee would otherwise be in the program unless the employee accepts a regular position.
- 4. An employee who fails to work on any day covered by paragraph 3 when work is offered may be terminated from the program and will receive a layoff allowance equal to the difference between the employee's original layoff allowance entitlement under Article 17 and the number of weeks they were in the program.
 - 5. If the department determines that the employee is not qualified or able to perform the duties of the temporary assignment, the department may remove the employee from the temporary assignment and return the employee to the pool. Such action shall not be grievable or arbitrable.
 - 6. The employee will retain seniority for the balance of time as defined in Article 8.

F. New Investigators or Project Directors

Notwithstanding the provisions of this Article, any investigator or project director joining the staff of the Medical Center may bring with him/her personnel of his/her own choosing. Seniority for such personnel shall commence when they enter employment at the Medical Center. Such investigators or project directors will give consideration to the recall of qualified individuals in the central recall pool to fill vacancies within that research or training project.

- G. In the event that the Employer anticipates any action which will result in an employment loss within the meaning of the Worker Adjustment and Retraining Notification Act, the Employer will serve a written notice on the Union prior to the effective date of such action as provided in the WARN Act. The Union may request discussions concerning the impact of any action covered by the WARN Act, including the possibility of an early retirement program or voluntary layoff allowance in lieu of lay-off.

Eligible dependents must be enrolled in a Bachelor or Masters Degree program (no non-degree programs)

The University shall provide tuition exemption as follows after a two semester waiting period (administered as 7-months) for employees and spouses or same sex domestic partners. This includes degree and non-degree courses for employees and degree courses only for dependents.

- A. The University shall continue for full-time regular employees in the bargaining unit the free tuition plan which provides seven (7) points of exemption for each of three semesters per year at Columbia University, with no limit on the number of courses each semester, within the allowance of seven (7) points, provided that, in the case of the summer semester, the University will retain the right to refuse to offer courses under this tuition exemption plan where such courses are deemed inappropriate or operationally inefficient by the University.

Part time Employees working 20 or more hours will be eligible for tuition exemption as follows:

Less than 1 year of employment=3 points per semester

More than one year of employment =4 points per semester

The Tuition Exemption Plan is described more fully in an announcement entitled, "Columbia University Tuition Plan".

- B. If an employee who is laid off is enrolled in a course and is otherwise eligible for tuition exemption, such employee will be exempt from the payment of tuition for the balance of the semester.
- C. The University shall provide tuition exemption as stated above in this Article of the Contract. This provision shall be expanded to include the spouse and dependent children of any full-time Supporting Staff Association bargaining unit member within the limitations set forth below:
- (1) The spouse and children of any full-time Supporting Staff Association bargaining unit member shall be entitled to utilize any unused portion of credit to which the member is entitled under this Agreement, except that there shall be no accrual of any unused portion or credit.

(2) The spouse and children of any full-time Supporting Staff Association bargaining unit member shall be entitled to apply the member's unused portion of credit to any course, graduate or undergraduate, subject to the following modifications:

a. that the course be given by a department or school of the Columbia Corporation. Courses given by Teachers College or Barnard College will not be tuition exempt for children or spouses.

b. that, in the case of children, they must be enrolled as candidates for a Bachelor, Professional or higher degree and must be matriculated into a degree program by age twenty-six (26). In cases where the son or daughter is registered as a degree candidate outside the University system but is able to obtain admission as a non-matriculated special student at Columbia, tuition exemption will be granted.

c. that enrollment in summer courses is subject to the limitation indicated in Section A above.

(3) There shall be no limitation on the utilization of tuition exemption, as outlined in this Agreement, because of the age of a member's spouse or dependent children, except as outlined in section C. (2) b. above.

(4) The spouse of eligible full-time bargaining unit members shall be immediately eligible for full utilization as outlined in this Agreement, but member's children shall not be eligible until the member has seniority for a minimum of two (2) years at Columbia University.

(5) Same sex domestic partners will be eligible for spouse tuition benefits under the existing plan and consistent with University policy. ARTICLE 34

UNIVERSITY TRAINING PROGRAM

A. The University and the Union agree that it is important to work together to establish programs which will give employees an opportunity to improve their skills so that they can be qualified for a better position. When funding permits, and with the consent of the supervisor or investigator, an employee may take job related courses during working hours.

- B. Employees shall be entitled to take one computer course ("Q" course) per year offered by the Division of Continuing Education. For those classes approved as work-related, employees receive time off with pay to attend classes. For those classes not directly work-related, employees may use vacation or personal time for those classes taken during their regularly scheduled work hours.

- C. In the event the University requires an employee to undergo training in his/her present position, such training shall be provided by the University during work time.

- D. The parties will establish a joint labor-management committee consisting of an equal number of representatives each to investigate training needs and employment opportunities of the bargaining unit.

In order to upgrade employee skills and enhance productivity, and to qualify employees for better positions, the University will create a fund to develop training programs and provide education and training for members of the bargaining unit, in addition to other education and training benefits provided in the agreement.

The University will provide the following amounts for the fund for the term of the agreement in addition to any unspent funds from the prior agreements:

June 1, 2022:	\$175,000
June 1, 2023:	\$175,000 with an additional \$5000 increase if needed, as determined by the committee due to increased applicants and usage.
June 1, 2024:	\$175,000 with an additional \$10,000 increase if needed, as determined by the committee due to increased applicants and usage.

The tuition reimbursement for each applicant will be up to a maximum of \$3000 for each semester (Fall, Spring, Summer).

Unspent funds in any year will be carried over to the following year.

The committee will jointly agree on allocations from the Fund, based upon the jointly identified needs of employees and the University, subject to the following guidelines:

1. Subject to the funding limitation set forth above for each calendar year, the parties agree that employees who have completed six months employment with the University may apply for funding for education or training programs, and will be awarded funds to be used for such programs. (The six month rule will not apply to training programs/courses given to a particular work unit.) Applications will be considered prior to the beginning of the summer, fall and spring terms each year.

In addition, any employee in the layoff pool, who was employed for a minimum of one year prior to layoff, shall be eligible for funding under this article subject to all applicable requirements. The course(s) shall not provide the basis for reimbursement under state unemployment programs.

All applications filed outside of the normal academic semester schedule will be considered on a case by case basis. (This will help address the increasing interest for CME training courses which often are offered sporadically during the year.)

2. The following are approved types of education and training programs covered by this agreement:

a. Tuition for any program given by Columbia or given at another college or university.

b. Tuition for the Computer Technology and Applications Program (CTA) given by the School of Continuing Education and Special Programs. (It is understood that the provisions of Article 33 of the agreement do not apply to Continuing Education programs.)

c. Training programs and education and training in order to upgrade employee skills and enhance productivity, and to qualify employees for better positions.

3. Allocation of funds, when and where possible, shall be approximately representative of the job series within the Bargaining Unit (i.e. Libraries, Clerical and Technical).

4. Employees are responsible for the cost of non-tuition fees, books, or course materials.

5. Employees are responsible for applying for and being admitted to any approved program set forth in paragraph 2. Eligibility for tuition payments under this agreement for use in the Columbia CTA program does not guarantee admission to that program.

6. Employees normally will be expected to take courses during non-work time. Provided that they have supervisor approval and consistent with operational needs, employees who are taking courses during the normal work day may request to use vacation or floating holidays, or may request time off without pay, or may make up the time, in order to attend the course. Consistent with operational needs, time off (with or without pay) will not be unreasonably denied.

7. In the event that the request for benefits under this agreement exceeds the available funding, the labor-management committee will determine how to allocate the funding. The committee will endeavor to maximize the number of employees who receive at least some benefit. Bargaining unit seniority may be considered along with other factors in allocation of funds.

8. a. Costs covered by scholarships or grants to the employee are not covered by this agreement.

b. Employees who receive funding are required to present satisfactory evidence that they successfully completed the particular program/course(s) for which they received funding before being eligible for additional funding. Employees who do not successfully complete a particular program/course(s), or who terminate their employment prior to completing a particular program/course(s), will be responsible for repayment of the funding for that program/course(s).

9. The University believes that employees are not required to pay income taxes on the value of the benefit received under this agreement. If at any time the IRS disputes Columbia's interpretation, employees may be liable for taxes on the cash value of any benefits received, plus any penalty and interest assessed.

10. Where feasible and applicable, University-provided training shall provide participants with appropriate certificates of completion.

Re: Transit/Parking Reimbursement Program

Dear Victor,

Effective January 1, 2000, Columbia University will offer all employees the opportunity to participate in the Transit/Parking Reimbursement Program (T/PRP). T/PRP will provide employees with the same tax savings for commuting on mass transit that TransitChek provides. In addition, tax savings are available for parking in connection with commuting to work. Full details of the University's program and a question and answer document are attached.

We intend to offer employees the opportunity to enroll in T/PRP this October as part of the open enrollment process for health benefits. For employees whose unions provide health benefits, and who therefore do not participate in open enrollment, the University will conduct a special open enrollment for T/PRP.

We would be pleased to include eligible employees who you represent in the Transit/Parking Reimbursement Program, subject only to your agreeing that Columbia will have the right to modify or eliminate the program on the same terms as are applicable to other represented employees.

Sincerely,

RESEARCH PROJECT SAFETY PROTOCOLS

The following document is a general description of the safety procedures for SSA research personnel whose work involves collection of data such as, but not limited to, standardized interviews, collection of specimens, medical, psychiatric and neurological exams and contacting and tracking patients outside the premises of Columbia University Medical Center (“CUMC”) in the community.

There are five key aspects to safety procedures in this protocol. They are 1) training of research personnel and escorts in safety, 2) specific safety procedures, 3) use of escorts, 4) continuous monitoring and updating of general and specific neighborhood locations, and 5) regular communication with local police precincts. The five aspects of the safety protocol are detailed below.

1. Safety training of research personnel

As a part of their initial training, each interviewer or other research worker is to review safety procedures to be used while in transit to and during assessments, whether they occur in the participant’s home, in public spaces or in CUMC in general. Research personnel are to be trained to be aware of their surroundings, to use common sense to avoid danger, to recognize potentially dangerous situations, to remove themselves safely from potentially dangerous or tense situations, and to report any unsafe situation immediately after returning to the office. Research personnel are to be instructed to proceed with extreme caution, and to use “more caution than usual” when out in the field. They are to return to their office immediately if they notice any situation or condition with potential danger. Specific safety procedures are detailed below.

2. Specific safety procedures

a. Research personnel safety. If any member of the study personnel team (tester, interviewer, research physician or escort) is concerned at any instant in time that there is an unsafe situation for any member of the study team, then ALL members of the team are required to immediately stop study procedures, and leave the premises to a safe location. In case of a difference of opinion, the team must defer to the individual who feels there is any danger. If there is any concern that such evacuation would result in an unsafe situation for other persons not part of the study (e.g. study subjects) then city emergency services are to immediately be called by cell telephone at 911. If any study personnel are threatened, or observe any illegal activity, then as soon as is safe, city emergency services should be called immediately by cell telephone at 911.

b. Research participant safety. If study personnel observe an unsafe situation for a research subject, a telephone call to 911 is to be made in case of an emergency or to 311 for nonemergent city issues, or appropriate telephone referral should be made for nonemergent medical care. In all such cases permission from the subject should be sought for telephone contact with a family member, so they can also be informed.

c. Casual dress. Research personnel have found that in order to be less conspicuous, they should not wear business attire or white coats when out in the field. Research personnel are to display their CUMC ID badges only when at the door of the participants and on the CUMC campus.

- d. AM visits. Some large studies at CUMC have found that morning visits help to increase safety in certain buildings/apartment complexes.
- e. Check-ins. Research personal working in the field are instructed to always check in and/or return to their study office at Columbia University Medical Center before leaving at the end of the work day.
- f. Cell phones. All research personal working in the community are to carry cell phones in the case of emergency.
- g. Transport via car service. All transport of research personal or participants to and from CUMC and participant homes is to be done using local car service.
- h. In-house interviews. Participants in questionable or off-limits areas are to be asked to come in for visits to the CUMC.

3. Documentation and notification procedures

- a. Contact project supervisors: Any unsafe or unclean situation, and any proposed action contrary to the above protocols, is to be reported to the Project Coordinator within 1 hour for emergencies, and within 24 hours for nonemergent situations.
- b. Document unsafe events: Any time an unsafe or unclean situation is encountered, it is to be reported in writing within 24 hours to the Project Coordinator, recorded in both the participant's file and on a safety alert form. These forms should be maintained by the Project Coordinator and copies maintained in the participant's research chart. This helps the team plan for future visits and update the safety precautions list (below).
- c. Follow-up unsafe events: Any such situation above must be addressed again on a followup basis within 7 days as appropriate, with the Project Coordinator.
- d. Modify project as needed: Any such situation above must be discussed with the Project Coordinator, and then reviewed with the Project Principal Investigator, to be certain appropriate actions occurred at the time, and to develop plans or modifications to the project so that any further such issues can be handled most correctly.

4. Use of Escorts

Every possible effort should be made to use escorts to accompany research personnel in any visit to an area or building that is possibly unsafe or if the team is unfamiliar with the area or building. The role of escorts is purely to assure the safety of the team when out in the field. All escorts should be fluent in English and Spanish. It is the responsibility of CUMC to provide escorts for research projects which it hosts.

5. Continuously updated list of locations where special precautions are needed

- a. Areas and buildings. As a result of safety tracking form reports or communication with local police (see below) a running list of streets, blocks, and buildings will be maintained by the research team. This list is to be constantly updated and re-evaluated, and posted in a common area in the research offices. A copy of the list must be submitted to CUMC Security Office whenever it is updated. The Security Office shall maintain a master safety list of streets, blocks and buildings which will be available for review by all research Project Coordinators.
- b. Individual participants/apartments. On a few occasions, the conditions inside the home of specific participants may be found to be unsuitable or unsafe for future home visits. This assessment is made independently of the conditions in the surrounding building or area. These incidents are also to be reported as described in item 3 above.

6. Communication with local police.

It is strongly recommended that research staff maintain friendly and frequent contact with the community liaisons at the local police precincts. These police contacts should be informed and be familiar with the procedures of individual studies and advise the staff as to the safety of areas and buildings in the studies' catchment areas.

Dear Ms. Alleyne and Mr. Ashby:

If the University modifies its position on same sex domestic partners tuition coverage, and such modification is lawful under federal, state and local laws, the same sex domestic partners tuition exemption coverage will be similarly modified in the contract.

If the University modifies its position on same sex domestic partners medical coverage, and such modification is lawful under federal, state and local laws, the \$1000 annual subsidy for medical coverage of same sex domestic partners will be similarly modified in the contract.

If the University does modify its position on same sex domestic partners, employees would receive notice prior to any modifications, and there would be no modifications until the next benefit year.

The parties agree that no changes would take place that are in contravention of any laws.
