

SURVIVAL

Imagine you are stranded in the forest during a blizzard, how will your team **survive**?

What You'll Need

List of 7-12
random objects
from your office

What You'll Do

- 1 Create a list of 7-12 random objects you can find in an office. Then tell your team they are currently stranded in the forest during a blizzard.
- 2 Split your team into evenly groups. Provide each group with the list you created.
- 3 Ask them to rank the objects in order of importance to survive the blizzard and the reason behind it.
- 4 The team with the most creativity will win!

What You'll Gain

Breaking the Ice

Problem Solving

Teamwork
